---

This program meets the accreditation criteria of the College of Family Physicians of Canada and has been accredited by the University of Manitoba CPD Program for up to 11.25 Mainpro-M1 credits.
Welcome to Ca-PRI!

It’s thrilling to find a community of people who share your exact interest, particularly when that interest is just outside the mainstream. For me, Ca-PRI was just that kind of discovery: my heavens, a group of family doctors (and others) interested, not just in research, but in research in how cancer care is delivered in primary care! It felt too good to be true when I got that first email from David Weller about our inaugural meeting in Edinburgh in 2008. The international nature of this community deepens the pleasure and interest of our annual reunion which we are proud to host here in Winnipeg in 2014.

So welcome to this seventh annual meeting of Ca-PRI: the Cancer and Primary Care Research International Network. We were thrilled by the response to the call for abstracts, and have been working hard to create a learning and networking experience that will invigorate and motivate you. The theme of this year’s meeting, New Partnerships in Primary Care Cancer Research, highlights the focus of both our plenary presentations and delegate mix. Successful research teams in 2014 need to meaningfully engage with the patients we serve, the health policy decision makers we want to influence and the clinicians we hope will modify their practice based on our findings. All three of these groups will form part of the delegate mix here at Ca-PRI 2014 for the first time. We welcome your feedback on their presence.

Many funding organizations, a strong local organizing committee, and the support of the Ca-PRI Executive have made this event possible. Thanks to all of them! I hope that each of you go home with terrific memories of this meeting, and with the experience of at least one conversation that transforms the research you are passionate about. And let’s meet again next year, this time in Denmark.

Sincerely,

Dr. Jeff Sisler
Chair, Local Organizing Committee
Ca-PRI 2014
Welcome to the 2014 Cancer and Primary Care Research International Network (Ca-PRI) meeting.

Jeff Sisler and his team have done a magnificent job in staging the meeting this year; they have had particular success in attracting funds from CIHR and other sources. We are extremely grateful for this sponsorship and it’s meant we have been able to offer support to a number of delegates who might otherwise not have been able to attend. Manitoba has been at the forefront of primary care oncology and Jeff and his colleagues at Cancer Care Manitoba have developed excellent models which truly engage primary care practitioners in the care of cancer patients. I’m excited about the opportunity of learning more about these amazing efforts, and indeed the many excellent cancer control programmes across Canada.

Ca-PRI meetings have become pretty well established in the calendars of primary care and cancer researchers. They are friendly, congenial meetings which emphasise scientific rigour whilst providing a supportive environment for presentation of research, particularly for our more junior colleagues. This year we’ve had an amazing response to the Winnipeg meeting – it’s truly a credit to the enthusiasm and attention to detail that Jeff and his team have invested – backed up of course by the long suffering and hard-working Ca-PRI Executive and the Ca-PRI Secretariat (Jan Thompson deserves a special mention for many years of dedicated service!).

I hope that over the next two or three days you are inspired by the research, the wonderful ambience of this conference, and the beautiful surroundings of Winnipeg.

Thanks so much for joining us.

Abstract Publication

For the first time, abstracts from Ca-PRI 2014 will be published in the European Journal of Cancer Control. Look for more details by email from the Ca-PRI office.

Publication of abstracts is possible due to the generous support of the Canadian Partnership Against Cancer and the Canadian Cancer Society, Manitoba Division.
Many Thanks to the Sponsors of Ca-PRI 2014
Dr Eva Grunfeld, University of Toronto

Building Partnerships in Cancer Prevention Research

Dr. Eva Grunfeld is international leader in primary care cancer research and the lead author of many seminal randomised trials in the field. Dr. Grunfeld's research focuses on evaluation and knowledge translation of cancer health services, covering the entire spectrum of cancer control activities. She is internationally recognized for making important contributions to the literature on cancer follow-up and cancer survivorship, and most recently cancer prevention.

Dr. Grunfeld is the Giblon Professor and Vice Chair of Research at the Department of Family and Community Medicine, University of Toronto. In 2013, she was named the Director of the Knowledge Translation Research Network of the Ontario Institute of Cancer Research and CancerCare Ontario’s Health Services Research Program.
Dr. Patricia Martens, University of Manitoba

Building Partnerships with Decision-Makers: Lessons from the Manitoba Centre for Health Policy and the Award-Winning "The Need to Know" Team

Dr. Patricia Martens is a Distinguished Professor in the College of Medicine, Faculty of Health Sciences of the University of Manitoba, and the Past-director of the Manitoba Centre for Health Policy, an internationally acclaimed research centre focusing on population-based health services, public health and population health research.

Dr. Martens is a Member of the Order of Canada and has held various research career awards, including a CIHR/PHAC Applied Public Health Chair (2008-2013). Dr. Martens directs The Need To Know Team, a collaborative research group of university academics working with planners from the province's health regions and provincial government. This Team's research impact on health policy and planning was recognized through receipt of the prestigious CIHR's national KT Award in 2005.
Derek Stewart
Part of the Team: Building Research Partnerships with Patients

Derek Stewart OBE is a throat cancer survivor and former Chair of the National Cancer Research Institute (UK) Consumer Liaison Group, where he worked to increase patient participation in the work of the Institute. From 2001 until 2006 Derek was Chair of Gedling Primary Care Trust in Nottinghamshire, England. Derek now works as a freelance consultant providing training on patient and public involvement across charity and public sectors, with a particular interest in cancer research teams and initiatives. This contribution to health services in particular cancer led to being awarded an OBE in the Queen's Birthday Honours list in 2006.

Derek is now the Associate Director for patient and public involvement for the National Institute for Health Research Clinical Research Networks Coordinating Centre in England.
Dr. Simon Sutcliffe

Cancer Research and Primary Care: The Global Perspective

Dr. Simon Sutcliffe is an international leader in cancer control. An academic radiation oncologist trained in the UK, USA and Canada, he has served as the President of Princess Margaret Hospital in Toronto, Ontario and of the British Columbia (BC) Cancer Agency. He has led the Canadian cancer community in his role as Chairman of the Canadian Partnership Against Cancer, an independent organization funded by the federal government to accelerate action on cancer control.

He was a co-founder of Wellspring, a cancer support program in Ontario. Dr. Sutcliffe has served on a number of public and private sector boards including Michael Smith Foundation for Health Research and Genome BC and is active in international consulting regarding cancer control. Dr. Sutcliffe has been presented with the Queen’s Golden Jubilee Award and the Terry Fox Medal from the British Columbia Medical Association in recognition of his many years of leadership in the Canadian cancer community.
Conference Objectives

After attending the Ca-PRI conference, the participant will:

1. Describe the findings of new research in cancer care delivered in the primary care setting across the entire cancer care continuum

2. Report at least one conversation with another researcher that has contributed to the evolution of their research ideas

3. Implement one strategy to include patients or knowledge users in a new way in their research team

4. Feel energy and enthusiasm for their career in primary care cancer research
Programme

Ca-PRI 7th Annual Conference: June 10-13, 2014, Winnipeg, Canada
New Partnerships in Primary Care Cancer Research

(All sessions at the Hotel Fort Garry, 222 Broadway Avenue, Winnipeg unless otherwise stated)

Tuesday June 10th

15:00- 18:00 Registration  
18:00- 19:30 Welcome Reception with cash bar  
19:30 Graduate Students/Post Docs Networking and Mentorship Dinner

Wednesday June 11th

07:30- 08:00 Registration Opens (Available all day)  
08:00- 08:45 Breakfast  
08:45 Welcome and Greetings  
09:15 Plenary Presentation

Building Partnerships in Cancer Prevention Research  
Dr Eva Grunfeld, University of Toronto

10:15 Refreshment Break & Networking  
10:45 Oral Presentations: Session 1

Stream 1
Chair: Richard Neal, UK
O-01: Time intervals in the patient diagnostic pathway: comparison of definitions reported in the literature with the Aarhus statement  
Jaim Sutton, UK
O-02: Assessing the impact of a national early diagnosis initiative in primary care, using four early diagnosis metrics  
Greg Rubin, UK
O-03: Diagnostic intervals before and after implementation of standardised cancer patient pathways
Henry Jensen, Denmark

Stream 2
Chair: Stephen Taplin, USA
O-04: The impact of primary care providers on patient decision making about breast and prostate cancer screening
Michelle Driedger, Canada
O-05: Healthcare seeking in Danish general practice settings – the case of cancer
Rikke Sand Andersen, Denmark
O-06: Patients’ Views On testing For prostate cancer: A vignette based study of primary care attendees
Tanimola Martins, UK

Stream 3
Chair: Tunji Fatoye, Canada
O-07: What questions do patients ask their surgeon after curative treatment of colon cancer?
Thijs Wieldraaijer, Netherlands
O-08: General practitioners’ role during curative treatment for colorectal cancer
Annette J Berendsen, Netherlands
O-09: "I know where I'm going." Exploring transitions of follow-up care from specialist to primary care in colorectal cancer
Jeffrey Sisler, Canada

11:45  E-Poster Presentations
Moderator: Alan Katz, Canada
P-01: The role of primary care in cancer screening; International comparison study by Ca-PRI and the International Cancer Screening Network
David Weller, UK
P-02: Developing a sustainable programme of cervical screening in rural Malawi
Christine Campbell, UK
P-03: Reducing unnecessary colonoscopy referrals in primary care – benefits and costs of new diagnostic strategies for organic bowel disease
Charles Helsper, The Netherlands
P-04: Cancer care at your fingertips: A systematic review of cancer mobile applications
Larissa Nekhlyudov, USA
P-05: Health-care seeking among people with symptoms suggestive of colorectal cancer: a qualitative interview study
Nicola Hall, UK
P-06: Health care use after the diagnosis of cancer in children
Mary McBride, Canada
P-07: Patient pathways to cancer diagnosis and delay in care seeking: An exploratory study in Odisha (India)
David Weller, UK
P-08: Factors associated with later presentation and later stage at diagnosis of lung cancer: a prospective cohort study
Fiona Walter, UK

P-09: Symptoms that predict chest x-ray results suspicious for lung cancer in UK primary care: results from a prospective study
Lucy Brindle, UK

P-10: Oncologists’ perspectives on post-cancer treatment communication and care coordination with primary care physicians
Carrie Klabunde, USA

12:30 Lunch with Table Discussion Groups
Foyer, Crystal Ballroom

13:30 Plenary Presentation
Building Research Partnerships with Decision Makers: Lessons from the Manitoba Centre for Health Policy and the Award-Winning “The Need to Know” Team
Dr. Pat Martens, University of Manitoba

14:30 Guided Poster Walks with Presentations by Poster Hosts: Session 1
Poster Group A: Symptom-Based Diagnosis
Guide: Gerald Konrad, Canada

Poster Group B: Survivorship and Follow-Up
Guide: Masud Khawaja, Canada

Poster Group C: Screening, Prevention & Risk
Guide: Alan Katz, Canada

Note: E-Posters will be displayed in the Crystal Ballroom on the far wall but will not be hosted

15:30 Refreshment Break
Foyer 7th

15:45 Oral Presentations: Session 2
Stream 1
Chair: Peter Vedsted, Denmark

O-10: Sensitivity of symptoms and signs in different types of cancer
Knut Holtedahl, Norway

O-11: Quantification of the risk of breast cancer in symptomatic primary care patients
Willie Hamilton, UK

O-12: The diagnostic value of dyspepsia symptoms and their association with gastro-oesophageal cancers: a systematic review and meta-analysis
Margaret Astin, UK
Stream 2
Chair: Fiona Walter, UK
Salon A
First Floor

O-13: Potential benefit of reducing delay in the cancer care pathway; ovarian cancer
Charles Helsper, Netherlands
O-14: Cancer in young adults: Challenges of intimacy during survivorship
Baukje (Bo) Miedema, Canada
O-15: Development of a self-assessment tool (SAT-P) for follow-up of colorectal cancer patients in primary care setting
Irene Ngune, Australia

Stream 3
Chair: Greg Rubin, UK
Salon C
First Floor

O-16: The role of information gathering and physician experience in detecting early presentations of cancer in primary care
Thomas Round, UK
O-17: Cancer diagnosis via emergency presentation: the role of primary care
Elizabeth Mitchell, UK
O-18: Identification of patients at risk for colorectal cancer in primary care: An explorative study with routine health care data
Frederike Buchner, Netherlands

16:45 End of Day

17:30 Meet for walking group to Fort Gibraltar with guide, Alan Katz
Meet in Hotel Fort Garry Lobby

17:30-18:30 Transport to Banquet Venue, Fort Gibraltar, 203 Provencher
Winnipeg Trolley Company leaving hotel every 25 minutes.
Meet in Hotel Fort Garry Lobby

17:45-19:00 Fun at Fort Gibraltar: historical recreation and cash bar

19:00-22:00 Banquet Dinner and Entertainment, La Maison du Bourgeois, Fort Gibraltar, 203 Provencher

21:00-23:00 Transportation available back to Hotel, Winnipeg Trolley Company
Thursday June 12th

08:00 Breakfast
Foyer
7th Floor

08:45 Welcome to Day 2
Presentation by Ca-PRI 2015 Organizers (Denmark)
Concert Hall
7th Floor

09:00 Plenary Presentation
Part of the Team: Building Research Partnerships with Patients
Mr. Derek Stewart
Clinical Research Networks Coordinating Centre
National Institute for Health Research, UK
Concert Hall

10:00 Refreshment Break & Networking
Foyer

10:30 Guided Poster Walks with Presentations by Poster Hosts: Session 2
Poster Group A: Symptom-Based Diagnosis
Guide: Alan Katz, Canada
Concert Hall

Poster Group B: Survivorship and Follow-Up
Guide: Gerald Konrad, Canada
Crystal Ballroom
Left

Poster Group C: Screening, Prevention & Risk
Guide: Masud Khawaja, Canada
Crystal Ballroom
Right

11:30 Oral Presentations: Session 3

Stream 1
Chair: Knut Holtedahl, Norway
Concert Hall
7th Floor

O-19: Specific and nonspecific symptoms of colorectal cancer and contact to general practice
Sanne Rasmussen, Denmark

O-20: Explaining variation in cancer outcomes between 11 jurisdictions in the International Cancer Benchmarking Partnership: a primary care survey
Willie Hamilton, UK

O-21: Time from first presentation to treatment of symptomatic colorectal cancer: effect on disease stage and survival
Peter Murchie, UK

Stream 2
Chair: David Weller, UK
Salon A
First Floor

Frank Sullivan, Canada
O-23: The risk of bladder cancer with non-visible haematuria: a primary care study using electronic records
Sarah Price, UK

Fergus Hamilton, UK

Stream 3

Chair: Bo Miedema, Canada

O-25: The population-level influence of a specialized diagnostic unit on the diagnostic interval in breast cancer
Patti Groome, Canada

O-26: Transitioning patients from primary care: Identifying the tipping point from primary care to cancer diagnostic specialists
Donna Turner, Canada

O-27: Age and gender variations in cancer diagnostic intervals: analysis of data from the UK General Practice Research Database
Richard Neal, UK

12:30  Lunch with Table Group Discussion

13:30 – 15:00  Workshops

Challenging expectations around actively involving the public in research
Derek Stewart, UK

Building the evidence base for the early symptomatic diagnosis of cancer: The ABC-DEEP Consortium
Richard Neal, UK

Scoping a decade of tobacco dependence research: Where have we been and where can we go?
Alan Katz, Canada

15:00  Plenary Presentation

Cancer Research and Primary Care: The Global Perspective
Dr. Simon Sutcliffe, Canada

16:00  Closing Presentation and Remarks
Dr. Jeff Sisler, Canada
See Page 30 for more details about these exciting post-Ca-PRI events being held at the Faculty of Medicine, University of Manitoba

1. **Cancer Day for Primary Care: The International Edition**  
   *A continuing education day about cancer for primary care clinicians*

   **Venue:** University of Manitoba, Faculty of Medicine, Frederic Gaspard Theatre  
   727 McDermot Avenue, Winnipeg MB

   This is a full-day continuing education day about cancer for local and international FPs/GPs and other primary care providers. This event is only $75 for CA-PRI registrants. Please sign up at the registration desk if you have not already done so! A complete day program is also available.

2. **Morning at the Manitoba Centre for Health Policy**

   Join us for a 3-hour workshop exploring the structure and function of this highly productive research centre. The Manitoba Centre for Health Policy (MCHP) is a research centre of excellence that conducts population-based research on health services, population and public health, and the social determinants of health. While research scientists at MCHP are involved in a wide range of research projects, the centre also provides a highly developed research platform for peer reviewed health services and population based research. Registration is $50 for Ca-PRI Registrants.
**Poster Presentations: Guided Poster Walk**

**Poster Group A: Symptom-Based Diagnosis**  
**Concert Hall**

About the City

Winnipeg is a city of 750,000 people, a city that was the staging point for the opening of the Canadian Prairies, with a rich past filled with stories of the first settlements, the development of the historic corner of Portage and Main, and fur traders gathering at the junction of the Red and Assiniboine rivers. The Forks, as it is called, has been a centre of aboriginal culture for thousands of years and today is a national historic site and the tourist centre of Winnipeg. Our conference hotel is a five-minute walk from The Forks with gorgeous river walks and lots of interesting shopping and attractions.

Winnipeg has a rich cultural life with its own professional ballet, opera, and symphony companies, as well as the leading regional theatre company in Canada, the Royal Manitoba Theatre Centre. It is also home of the Winnipeg Jets ice hockey team and hosts large and successful fringe, folk, new music, and jazz festivals. In 2014, we will open two world-class facilities: the Canadian Museum of Human Rights and Journey to Churchill at the Assiniboine Park Zoo. Winnipeg is already home to the largest international polar bear conservancy organization in the world.

Visit [http://www.tourismwinnipeg.com](http://www.tourismwinnipeg.com) to learn more about all that Winnipeg has to offer.

Hotel Information

The Fort Garry Hotel is conveniently located on Winnipeg's most attractive downtown avenue, providing easy access to shopping, arts, entertainment, major sports venues, and the financial and historic districts. Downtown Winnipeg boasts one of the most vibrant cultural scenes in Canada and plays host to numerous events and festivals throughout the year. Just a short walk from The Fort Garry is The Forks. With museums, theatre, unique shops, diverse dining--it is one of Winnipeg's most popular, leisure-time destinations.

The hotel has a fully equipped fitness centre with an indoor pool, whirlpool, steam room, and track. Ten Spa, within The Fort Garry Hotel, is world-class and offers a variety of treatment options, including hamam, a Turkish spa experience. The hotel offers valet parking, provide 24-hour room service, as well as a 24-hour Concierge, complimentary high speed WiFi internet, and complimentary laptops for Internet access at the front desk. Please see the website for directions and contact information at [www.fortgarryhotel.com](http://www.fortgarryhotel.com).
About the Neighbourhood: Be sure to visit The Forks!

The Fort Garry Hotel is conveniently located on Winnipeg's most attractive downtown avenue, providing easy access to shopping, arts, entertainment, major sports venues, and the financial and historic districts. Downtown Winnipeg boasts one of the most vibrant cultural scenes in Canada and plays host to numerous events and festivals throughout the year. Just a short walk from The Fort Garry is The Forks. If you have any questions, or require further clarification, please do not hesitate to contact us at 1-800-655-8088.

Transport from the Airport

Taxi
Winnipeg Airports Authority and Unicity Taxi have proudly partnered to provide taxi service from the airport. Taxis are available near Exit 3 at the terminal building, approximate cost to hotel is $20.00. Please visit the following link for more information:
http://www.waa.ca/location/othertransportation

For more information or to book a cab, please contact Unicity Taxi at admin@unicitytaxi.mb.ca or (204) 925-3131.
**Sedans**

Hollywood Limousines, winner of Winnipeg’s Consumer Choice Award in 2011 & 2012, operates full size sedans and offers a value loaded customer experience in modern style. Generous luggage compartments accommodate large groups, and debit and credit transactions are processed in-car.

Rates are fixed according to destination and will be about $32.00. To view the rates, please consult http://www.waa.ca/uploads/ck/files/Rates-V3(1).pdf.

For more information or to book a trip, please contact info@hollywoodlimoservice.com or (204) 999-1860.

**Mass Transit**

Winnipeg Transit service is available to and from the Winnipeg James Armstrong Richardson International Airport. Routes 15 and 20 pick up from the airport and drop very near to the Fort Garry Hotel. For rates and schedules, please visit Winnipeg Transit's website http://winnipegtransit.com/en/routes or call 311 or toll-free at (877) 311-4974.

**CA-PRI Banquet, Wednesday 11th June**

Our Ca-PRI banquet will be held at Fort Gibraltar, which has been a historic gathering place since 1809. Situated on the banks of the Red River, Fort Gibraltar's natural beauty will take you back 200 years to the period of the voyageurs and fur traders who explored Western Canada from their homes in Lower Canada (Quebec). Before the banquet, wander the grounds and enjoy the historical interpretations of this fort, including the blacksmith’s See the various furs being prepared for shipment east to Montreal and the trade goods offered to local trappers, Selkirk settlers, and voyageurs.

Our banquet will be held within the gates of Fort Gibraltar at La Maison du Bourgeois. This impressive building, the largest in the fort due to its commercial and social importance, was the residence for the partners of the Northwest Company as well as the main trading facility. Today, expect great food and a lot of fun!

Fort Gibraltar is approximately a 30-minute walk from the conference hotel. A walking group to Fort Gibraltor will depart from the Hotel Fort Garry Lobby at 17:30.

Transportation will be provided from the Hotel Fort Garry to Fort Gibraltar by the Winnipeg Trolley Company starting at 17:30 on Wednesday, departing from the front of the hotel and returning in a loop to pick up more guests. The Trolley will also return us home again starting at 21:00.
Following is the walking route from the Hotel Fort Garry (B) to Fort Gibralter (A):
Extra Ca-PRI Events at the Faculty of Medicine  Friday June 13, 2014

1. Cancer Day for Primary Care: The International Edition
   A continuing education day about cancer for primary care clinicians

   Venue:  University of Manitoba, Faculty of Medicine, Frederic Gaspard Theatre
           727 McDermot Avenue, Winnipeg MB

   Cost:  $75 for Ca-PRI Delegates.  Please sign up at the Registration Desk if you have not already done so and would like to attend.  A complete day program is also available there.

   0800  Bus leaves Hotel Fort Garry for the Faculty of Medicine
   08.30 - 15.00  Conference
   15.15  Bus returns to Hotel Fort Garry

   This is a full-day continuing education day about cancer for local and international FPs/GPs and other primary care providers. The event will be held in the new modern facilities of the Faculty of Medicine of the University of Manitoba in Winnipeg. Bus transportation from the Hotel and a full lunch will be provided. The day will feature engaging presentations from leading clinician-researchers from the international Ca-PRI community and from our host city. The speakers will address important issues in cancer prevention, diagnosis, and follow-up care for clinicians. This event is only $75 for CA-PRI registrants. Please sign up at the registration desk if you have not already done so!

2. Spend a Morning at the Manitoba Centre for Health Policy!

   Join us for a 3-hour workshop exploring the structure and function of this highly productive research centre. Registration is only $50 for Ca-PRI registrants

   The Manitoba Centre for Health Policy (MCHP) is a research centre of excellence that conducts population-based research on health services, population and public health, and the social determinants of health. MCHP develops and maintains the comprehensive population-based data repository on behalf of the Province of Manitoba for use by the local, national and international research community. MCHP promotes a collaborative environment to create, disseminate and apply its research. The work of MCHP supports the development of evidence-informed policy, programs and services that maintain and improve the health and well- being of Manitobans.

   While research scientists at MCHP are involved in a wide range of research projects, the centre also provides a highly developed research platform for peer reviewed health services and population based research. To learn more about MCHP, please visit www.umanitoba.ca/centres/mchp/.
The Cancer and Primary Care Research International Network (Ca-PRI) is an open, multidisciplinary network for researchers in primary cancer care and related areas. Ca-PRI was founded in 2008 and welcomes researchers from all disciplines related to research and development in the fields of cancer care in primary care.

The aim of the Ca-PRI Network is to provide a mechanism by which researchers from different countries can come together and share expertise and, ideally, develop new international collaborative proposals:

- Primary care and cancer research could benefit from access to larger and more diverse patient populations. Studies in this field have typically been based on relatively small numbers and international collaboration is one mechanism through which more substantive studies might be developed.
- There is much to be gained from comparing health data in areas such as early diagnosis, screening and survivorship from different countries.
- Differences in diagnostic intervals, survival, screening rates etc provide important clues in elucidating the most effective roles for primary care in cancer control.

The network has three main ambitions:

- Support and stimulate network.
- Encourage to and support comparative studies.
- Creating an environment for doing international collaborative studies.

Current members of the executive group are: Christine Campbell, United Kingdom; David Weller, United Kingdom; Jeff Sisler, Canada; Greg Rubin, United Kingdom; Jon Emery, Australia; Knut Holtedahl, Norway; Kurt Stange, United States of America; Peter Vedsted, Denmark; Richard Neal, United Kingdom; Stephen Hunt Taplin, United States; Fiona Walter, United Kingdom.
